 qusai21 |  qusai-shergardwala |  qusher9953@gmail.com |  +91 9665153602 | Open to Relocation

EDUCATION

Vishwakarma Institute of Technology, Pune
B.Tech, Artificial Intelligence and Data Science

2022 – 2026
CGPA: 8.74 / 10

TECHNICAL SKILLS

Programming Languages	Python, Java, SQL, Dart
ML & AI	Deep Learning, Transformers, NLP, RAG Pipelines, AI Agents, LangChain, CrewAI, MCP
AI Dev Tools	Claude Code, GitHub Copilot, Kiro, Cursor
Frameworks & Tools	Flutter, Firebase, Next.js, MySQL, MongoDB, Git/GitHub, CI/CD, REST APIs
Concepts	Data Pipelines, End-to-End ML, DBMS, Object-Oriented Programming, Test Automation

WORK EXPERIENCE

Software Engineer Intern, Rapid7 (Vulnerability Coverage Team)
Pune, India (Hybrid) | Global Cybersecurity Company, NASDAQ: RPD

January 2026 – June 2026

- Developed an **LLM-based content validation** tool that ingests structured CVE metadata from MSRC APIs, reducing false positives and tightening accuracy across vulnerability content.
- Owned end-to-end vulnerability coverage for **Microsoft Patch Tuesday** within a **24-hour SLA**, running automated detection plugins and on-the-spot R&D to resolve pipeline failures across **20+ Microsoft products**.
- Developed a **QA automation pipeline** for vulnerability content releases incorporating **Cucumber-based test automation**, automated regression testing, and end-to-end validation workflows, reducing manual verification effort and improving release quality.
- Built an **Apache Airflow** pipeline to automate **Microsoft Patch Tuesday vulnerability coverage generation**, pulling from **MSRC CVRF** and **SUG APIs** to parse, transform and deploy **80–100 CVEs** per release cycle, reducing manual effort by **6+ hours** every release.

Junior Software Developer, DesignerNest
Remote | [View Client Work](#)

August 2024 – December 2025

- Developed and deployed **25+ production web applications** across various domains using **Next.js**, **React**, and **Firebase**; integrated payment gateways and admin dashboards for 10+ clients.
- Automated CI/CD and monitoring workflows, reducing deployment cycle time across all client projects.

PROJECTS

AI WhatsApp CRM

[GitHub](#)

React, Firebase, Firestore, Cloud Functions, Cloud Tasks, LangChain, Groq, WhatsApp Cloud API

- Built a **WhatsApp CRM** for **real estate agencies** where an **AI assistant** interacts with customers, understands their requirements, recommends suitable properties, and hands over conversations to **human agents** when needed.
- Developed a **campaign management system** with **WhatsApp template management**, **bulk messaging**, **delivery tracking**, **read receipts**, and **automatic retries** using **Cloud Tasks**.
- Designed an **event-driven backend** using **Firebase Cloud Functions** and **Firestore**, with **background workers**, **queue-based processing**, and reliable **webhook handling**.
- Built a **real-time dashboard** to track **leads**, **campaigns**, **AI usage**, **WhatsApp messaging**, **estimated costs**, and **credit consumption** using an **incremental metrics engine**.

Multi-Agent Vulnerability Scanner

[GitHub](#)

- Fault-tolerant multi-agent orchestration for end-to-end vulnerability discovery, triage, and **JSON** remediation reporting using LLM-powered reasoning across specialised agent roles. **1st Runner-Up, Uptiq AI Hackathon**.

MediClear: AI-Powered Patient Health Platform

[GitHub](#)

- Full-stack health platform using **Meta's Llama LLM** with **Groq API** for medical jargon clarification, prescription breakdowns, and visual dashboards; **Flask** microservices on **Supabase** with LLM inference in production API. **Won DevClash @ DY Patil College of Engineering**.

ROLES OF RESPONSIBILITY

- Project Head, IEEE Student Branch VIT Pune** May 2024 – May 2025
Led 6-member team to publish Sofiya Properties app on **Google Play**; ran 6-day AI Agents workshop for **200+** participants; mentored 30+ junior developers.
- Director, UNCSW (VPMUN 2024) and UNCSTD (VPMUN 2025)**: Chaired committee for 40+ delegates each year; USG Delegate Affairs managing 250+ participants across 7 committees.

PUBLICATIONS

- Springer (Scopus Indexed)**: **"Fake News Detector for Combatting Misinformation in Digital Age"** *Machine Vision and Augmented Intelligence*, 2024.
- IEEE Xplore**: **"Synthetic Data Generation for Enhanced Model Efficiency: A GAN-Based Approach to Tabular Data"** *ICCTDC Conference*, 2024.
